Special issue: 'Effort Perception', edited by Shrawan Kumar

S. Kumar
Preface 1
S. Kumar, M. Simmonds and D. Lechelt
Maximal and graded effort perception by young females in stoop lifting, hand grip and finger pinch activity with comparisons to males 3
M. Schütte, S. Ge and R. Hertting-Thomasius
An analysis of the subjective strain perceived by parcel-deliverers. 15
R.W.A. Baildon and H.-V. Ulmer
Time course of effort perception (RPE) and influence of strain 25
K.A. Grant, D.J. Habes and V. Putz-Anderson
Psychophysical and EMG correlates of force exertion in manual work 31
S.C. Gandevia
The sensation of effort co-varies with reflex effects on the motoneurone pool: Evidence and implications (Review article). 41
H. Lu and F. Aghazadeh
Psychophysical determination and modeling of load carrying capacity (Review article) 51
R.J. Shephard
Perception of effort in the assessment of work capacity and the regulation of the intensity of effort (Review article) 67
